Of Eclipses of the Sun and Moon.

AN Eclipse is the Obscuration or hiding of one of other of the Luminaries by the Interposition of some dark or dense Body: So when the Earth comes between the *Sun* and the *Moon*, it not only hideth, but (for a time) taketh away and deprives her of her borrowed Light; This never happeneth but when at her *Full*, she is opposite to the *Sun*, in, or near the *North* or *South Node*, or point in which the *Orbe* of the *Moon* intersecteth or crosseth the *Ecliptick* or *Circle* in which the *Sun* is supposed to performe her motion. When at the time of true Opposition, the *Center* of the *Moon* is in the *Ecliptick*, the *Eclipse* is Central and Total, but if at that time she incline from the *Ecliptick*, sensible to her *Latitude* more or less, will her *Eclipse* be partial, or total, *vel cum vel absque more*, with or without Continuance of total darkness.

The *Sun* is said to be Eclipsed, when by the Interposition of the *Moon*, some part of the *Earth* is deprived of the Light of that *Luminary*; This happeneth not but at *New Moon*, when near the *Node* she is in *visible Conjunction* with the *Sun*, her *apparent Latitude* being less than the *Semidiameter* of the *Sun* and *Moon*.

Twice this year will the *Sun* be Eclipsed.

1. On *June* the Eight. 2. On *November* 25. both of them near the *Nodes*, and great to such as live near the *Line*: but to us Invisible.

On the 15th of *June* the *Moon* will suffer a very small Eclipse after Noon, and to us Invisible.

The Suns Ingress into the four Cardinal points.

A Monitory Advertiſement

To all who deſire to approve themſelves Serious and ſeeing; under dark Diſpenſations, Prov. 22. 3.

FOrbearing to ſpeak of the poſition of the Stars at the Suns Ingreſs into the four Cardinal points, which preſent nothing more then ordinarily Conſiderable we may take notice of two the moſt remarkable Aſpects of the Planets which will be this year. The firſt will be a Conjunction of ♄ and ♂ *Saturn* and *Mars* upon the 15*th.* of *July* neat the *Pleiades* commonly called the *ſeven Stars*, then which, theſe Planets will appear a little lower, as about 5 or 6 degrees more Southerly: *Mars* being about 1 degree above *Saturn*, as having leſs *Southern Latitude* then he: this happening near nine of the Clock before noon, the beſt time to obſerve it (if the Air be clear) will be a little before the preceding day-break: theſe Planets will appear near to fixed Stars eminently influential on Inferiour Bodies, The Second will be a True Aſpect of the two higheſt of the Planets *viz.* ♄ and ♃ on the 17*th.* day of *November*, a little before noon: What theſe ſignify I ſhall not ſay, but leave their Effects to Gods Providence and mans obſervance. And leaving Star-light, I ſhall make uſe of that far more reſplendent and glorious, of the Sun of Righteouſneſs ſhining out to us in the holy Scriptures.

Our bleſſed Saviour, *Matth.* 16. 3. informeth us, that it is a far more Chriſtian and noble Skil to diſcern the Signes of the Times in Reference to what is Spiritual and Eternal, then from Experience to be able to gueſs at the change of Air and Weather in order to what is Temporal. Nothing is more unqueſtionably certain, then, that Times and Changes will be paſſing over the Church while Militant here in this lower World: Times of Proſperity and Adverſity, like day and night, are taking their Turns, *Eccleſ.* 7. 14. the way to Heaven is laid out through much Tribulation, *Acts* 14. 22. and unavoidable Perſecutions, 2 *Tim.* 3. The Chriſtian had need be furniſhed and well provided, and be laying in for a winter voyage, nothing but Faith, Patience, and a good Conſcience can ſecure us from a ſhipwrack, and bring us ſafe to our deſired Port, the longed for ſhore of bleſſed Eternity.

Againſt

again. It is but Vanity that ordinarily great Changes are observed to obtain such precedent & concomitant Signs, as call for a heedful attendance to, & serious Consideration of them (Am. 3.6.) In this Case the blessed God is wont (not to surprize but) to come on both gradually, and (at least to an awakened discerning eye) visibly; he lifteth up his hand in the Clouds, before he bringeth it down in Execution, Isa. 26.11. gray hairs and decayed strength are set before to knock and tell us that Death is coming to the door, Hos. 7.9. God begins as a Moth before he comes to destroy and devour as a Lion, Hos. 5.12, 14. he chooseth mildly to demand the glory of his mercy, before he strikes for the glory of his Justice: saith he not to Adulterous, Backsliding, Scarred, forewarned, and for a long season wasted [illegible] poor Sinful Country? have we not had many a lowring [illegible] (and a fearful Continuing) Storm of Blood [illegible] came pouring down upon us? have we not been plainly, frequently, and frequently told from the Lord, what departing from him and his Gospel, Zech. 11. 12. and [illegible] Rev. 2. and 3. 1. &c. [illegible] and Life of Religion, Rev. 2. [illegible] Mat. 24. 38, 39. with a private, Self-[illegible] Spirits, [illegible] and Government, Isa. 3. 5. prevailing pride, bitter and [illegible] Contentions, sinful Security, &c. should prove the [illegible] of a dark and dreadful day [illegible] upon us? and have we not likewise had Confirmed the Word of his Servants, O poor [illegible] Land! time was (and that for years not a few) thou wert as the youngest Child in the Family, compassionately Cared for, and tenderly looked to, dandled on the Lap, laid in the Bosome, and carried up and down in Arms of mercy; but now, turned out of doors as a miserable Orphane, as a Child that hath no Father to pitty or care for it: O Repent and turn from all thy Transgressions, so Iniquity shall not be thy Ruine.
